## Christmas Is Fine

Along with many of our readers we are familiar with the phrase "Thank gosh Christmas comes but once a year", and along with some of them about now we want to join in the chant. There are presents to buy (and what could Aunt Sussie want), there are oodles of cards to be addressed, signed and mailed (and what is Johnnie and Mary's address), and the kids want a dollar or so to buy you a present you might not like and the stores are so crowded and, and, and.

But isn't it really a wonderful season, notwithstanding this week's weather? If more of us, more of the time, had just a little bit more of the feeling Christmas engenders in us, wouldn't the world, the United States and Hancock County be a whole lot better off? Most of us have a generous attitude at Christmas. Most of us at that time think more of other's problems than we do normally.

Atomic and hydrogen bombs, devastating world-wide warfare and even Congo's troubles would occupy much less of our attention if we would year round remember the birthday of "The Prince of Peace".

## For Men Only

Back some forty years ago this country adopted a constitutional amendment giving females the same voting privileges that males only had possessed in our nation before then. The amendment has a slight taint to it, not yet questioned in our supreme court, in that females were permitted to vote to decide whether females COULD vote. While it doesn't make sense to us or any reasoning person, this editor feels sure that the Supreme Court of the United States would rule that the amendment is a part of our law, even if its adoption was obviously "without the law".

Aside from the technicalities pointed out above we really have no disagreement with the nineteenth amendment. After all, without women none of us, male or female, would be here, and scientific and sociological evidence would indicate that the intelligence of the two sexes is basically the same. Even in some physical fields, such as the ability to withstand the coldness of water for protracted periods, the female of the species, homo sapiens is deemed superior.

There is, however, a different and more important reason for some objection to our rules. If man and woman are equal, why should man open the door for woman? If they are equal, why should laws dealing with marital relations openly favor the female? If they are equal, how can we justify our law on seduction? If they are equal, why does the draft apply only to males?

Let us have our 19th amendment giving the female of the species voting privileges, but let us also take down the pedestal and give our males nearly equal legal status to the female.

We would be much more interested in a current radio feature dealing with the national happenings 100 years ago (South Carolina seceded 100 years and two days ago), except we think the wrong side won.

## County Agent Notes

By O. O. Swords

### SOIL TESTING

How much fertilizer are you going to use under your next year's crops? Are you going to use the same amount on all of your land? The same amount for the different crops?

If you do, you are guessing. And guessing costs money when it comes to use of fertilizer. You stand a good chance of using too little fertilizer and come chance of using too much. Both are a waste.

A soil test will take the guesswork out of your fertilizer program.

Your county agent has a supply of soil sample boxes and instructions for taking good soil samples.

### DAIRY COSTS IN 1961

Prices for good (except feed) and services used in milk production are expected to be higher in 1961 than they were this year.

Prices of fertilizer, feed and feed are expected to be about the same this year. Wages, power, fuel values, interest, taxes and insurance are expected to increase upward.

The means that Mississippi dairymen must make good plans and follow through closely with their dairy management if production profits are to be maintained.

### FORESTRY NOTES

The best hunting season is now over, and you will have to wait through your winter to get the best of the season. The best of the season is now over, and you will have to wait through your winter to get the best of the season.

## Letters to the Editor

Editor, Sea Coast Echo  
**THE SONG OF THE SOUTH**  
 1961

We are a band of brothers  
 Native to the soil,  
 Fighting for our liberty  
 With treasure, blood and toil.

And when our rights were threatened  
 The cry rose near and far  
 Hurrah for the Bonnie Blue Flag  
 That bears a single star.

1961

Again our rights are threatened  
 The cry goes out again  
 Brothers watch your ballots  
 So we'll have states rights again.

The appointed politicians  
 Upon the high court bench  
 Usurped the legislative rights  
 And sits upon the fence.

Take Block of Alabama  
 renegades by the board  
 He'll vote for any ticket  
 that will increase his Hoard

And Warren of California  
 who started integration  
 Never thought he'd nearly  
 break the safety of the Nation.

And Frankfurter of Hawaii  
 a real N.A.A.C.P.  
 He hopes when things go right  
 again

We all will let him be.

And Louisiana's Skeely Wright  
 to rise upon the bench  
 Has held the line for Polyticks  
 on the wrong side of the fence.

Editor, Sea Coast Echo:  
 The Bay St. Louis Fire Department has a reputation for saving the lots. (Some homes are saved but the people do not remember them.) The Bay St. Louis Fire Department has modern fire equipment and good men to fight fires. But these are not enough to fight a fire. Bay St. Louis needs an active volunteer fireman's department. Many people come to a fire but are not experienced fire fighters. Why not train them as volunteers? Wake up men of the Bay before you wake up too late and find your home burning or your neighbor's home on fire.

INTERESTED  
 Bay St. Louis.

Editor, Sea Coast Echo:  
 I am one of your subscribers. I wish the editorial captioned Mental Dishonesty in your issue of Dec. 1 could be read by every citizen of our country; and this not only for the merit of your argument, but also because of the example it sets of independent thought and emphatic protest.

For more than six years we have been told that, regardless of the constitution, "A Supreme Court Decision is the Law of the Land." We have heard it and read it from editors, teachers, clergymen, legislators and politicians of high degree, including two candidates in the recent presidential election. It has been said so often that many good

citizens have thoughtlessly accepted it. But it is untrue. A court decision must rest upon law, otherwise it is a nullity and a fraud, and this can easily be proved.

Thus - the constitution says no man can be a Congressman until he is 25 years old. Suppose we elect a fine man and good football player who is only 22 years of age? Suppose there is a contest and an appeal to the Supreme Court and the court approves the election. Will the football player be a Congressman? The constitution provides that no person except a natural born citizen can become president. If a naturalized citizen or an alien should be named by the electors, could the Supreme Court make this valid? The Constitution says there shall be no slavery, that a law impairing the obligation of a contract is a nullity, and it has many other instructions that are very clearly stated and can be understood by the farmer and the merchant and the housewife as clearly as by the lawyer.

Another illustration - the makers of our constitution were disgusted with kings and they limited the term of a president to a few years. Now suppose we have a president who says he ought to be continued in office, that ideas have changed and people no longer want to bother with elections. If he has the sympathy of the Army and the question goes to the Supreme Court, can the court validate a term of 20 years and later on validate the succession of the president's son and afterward validate a change in title from president to king?

I suggest this possibility because of a very penetrating remark made by The Harvard Law Review in discussing the Supreme Court's school decision of May 17, 1954, which decision the court supported by citations from various writers on sociology (some of whom, incidentally, were shown by Senator Eastland to have Communist associations). The Harvard Law Review said "In dealing with prior cases, especially Plessy vs. Ferguson, the chief justice did not seek to demonstrate that the court had once erred. His point rather was that these prior decisions were simply outmoded in present day society." Now suppose the court should become persuaded by other sociologists, foreign and domestic, that presidents and frequent elections are now "outmoded", no longer fashionable, and should be declared accordingly. That would not be any cruder than the violation of the 9th and 10th Amendments by our highest court and by the court in New Orleans.

I have not seen in any newspaper - the text of the New Orleans decision. We are wondering what combination of words

**Nears Quota**

The annual Christmas seal sale for the Hancock County Tuberculosis Assn. is \$53.65 short of its goal of \$708.50, according to Mrs. Robert Fayard, drive chairman.

She expressed hope that in the next few days the difference will be made up, noting that a number of late returns are being received and everyone to the seals mailed last month. While funds for tuberculosis control are raised at Christmas time, Mrs. Fayard observed that the organization's efforts continue for 12 months of the year.

At Wednesday collection drives \$554.65, the Hancock County TB group has set its goal for 1954 on the basis of the highest sales on record.

### Mexican Sisters Renew Vows in Seminary Rites

Four Mexican sisters renewed their religious vows of poverty, chastity and obedience Dec. 4 at the Divine Word Seminary here, the rhythmic and melodic Spanish language adding to the solemnity of the occasion. Renewing their vows were Sister Rebekah (the Sister Super-

ior), Sister Ruth, Sister Elvira and Sister Sofia. All are members of the Pious Union of LaSalle Oblates of Guadalupe. (Minnesota, Mississippi, and New Mexico.)

At present eight of these sisters keep the members of this seminary well fed and clothed. In a festive sermon, the Rev. Carlos A. Lewis, S.V.D., congratulated the sisters on having entered the religious life to seek true peace and joy in Christ, and having decided to renew this consecration. He then asked them to pray for final perseverance, and recommended the seminary to their prayers.

A group of scholars, under the direction of the Rev. Arthur Winters, S. V. D. rendered the music (including Spanish hymns) for the occasion.

### Recording Released By Father, Sister Of Mrs. Mike Haas

A record with music and lyrics by Earle L. Wingo and his daughter, Pat Spencer, father and sister of Mrs. Mike Haas of Bay St. Louis, has just been released by Dixie Record Co., Nashville, Tenn.

The songs are A Newsboy on Christmas Eve and Some Boy's Dad. In addition to releasing the record the company is publishing the songs in sheet music form.

The lyrics for both songs were written by Wingo, criminal trial lawyer, some 40 years ago while he was a law student. His daughter put the words to music and was asked several weeks ago to sing the songs on a television program in Hattiesburg where they live. The recording contract followed shortly.

Charles Carter, Jr., owner-manager of the Music Box on Railroad Avenue, has the record in stock and will have the sheet music when available.

**Rosemarie Is Bay's Newest Stage Star**

This is the story of the birth of a stage star in Bay St. Louis. The star, who until his talents were discovered a few weeks ago, had been wasting his time roaming around the woods near Kiln Stage struck only a month or so he has already gone the way of so many show people - he's started running around after the opposite sex and just can't be made to conform to rehearsal and curtain schedules.

Our new star was discovered by the Little Theater cast of Visit to a Small Planet, performed three days last week. He's a cat, now named Rosemarie, the role he carried in the play. Rosemarie was a big hit in the play, meowing, looking up and doing everything he should right on cue. He even ate bacon on stage according to script.

His talents were actually noted by Bruce Brooks, a North Central teacher, who played Conrad Mayberry. A cat was needed in the play and not just any cat would do. In fact, Lucien Raymond, director, points out that Hollywood had to use a dog in the screen adaptation rather than a cat. One cat was tried in the role but just couldn't do what was needed. Brooks had noticed the white, blue-eyed cat around his home in Kiln, mentioned him in the cast, and the next day started watching for him.

They caught the cat, gave him a stage test, and found him to be perfect. The director said the cat is such a "ham" the biggest problem was keeping him off stage. He said the cat didn't even seem to mind the female role of Rosemarie. Rehearsals went fine. The cat was a real hit. He made the show, Raymond commented.

Saturday night came, the final presentation. Curtain time neared and Rosemarie couldn't be found. Backstage the talk was that perhaps a catnap had stolen him or perhaps he'd decided this was small stuff and had taken off for Hollywood. Raymond mused. The director started searching for the star. But the show had to go on and N. L. Carter, president of the Little Theater, noted before the first act that a stand-in was playing Rosemarie's part.

But finally Raymond found the cat, out romancing, chasing a black and white feline. They made it to the theater just in time for Rosemarie to make his first entrance in person. The cast sighed with relief according to Raymond. The final presentation was a success.

Now the new star is facing other possible roles in Mississippi and Louisiana. Already a New Orleans group has inquired about casting Rosemarie in a play and another Gulf Coast stage group has also inquired about using the new star. Raymond said Rosemarie is making his home with him. Stardom has no limits.

Her short veil was held by a tiara trimmed with seed pearls and she carried a single white orchid surrounded by lilies of the valley and tulips.

A sister, Miss Virginia Saucier, was maid of honor, and the Misses Mona Fevre and Beth Poolson were bridesmaids. They wore identical short frocks of sapphire blue tulle with matching

with clipper. Sapphire blue pearl crowns held their veils and they carried old fashioned bouquets of pale pink feathered carnations.

Mrs. Saucier wore a pale blue lace afternoon dress complemented with black accessories while Mrs. Wilson chose a two piece ensemble of pearl grey with black accessories. Both wore shoulder bouquets of white carnations.

The bride's table was covered with an imported white damask cloth and held a four-tiered wedding cake topped with the traditional miniature bride and groom. All other table appointments were in crystal.

For their wedding trip to an undisclosed destination, the bride wore an orchid and black outfit and the white orchid from her bouquet.

The young couple plan to live in Biloxi at 404 Water St.

Among the out of town guests were Mr. and Mrs. Edward Fiero and Mr. and Mrs. O. P. McNamee, all of New Orleans; Miss Virginia Wilson, Gretna, Va.; Mrs. John Askin of Biloxi and Mrs. B. T. Sneed of Columbus, Ohio.

### Miss Linda Dobson Is Bride Of Gerald Dorr

Stidell Methodist Church was the scene Friday of the wedding of Miss Linda Dobson, daughter of Mr. and Mrs. Roger Breland of Stidell, and Gerald B. Dorr, son of Mr. and Mrs. Lovell Dorr of Pearllington. The Rev. W. H. Cline officiated at the double ring ceremony before an altar backed with tall basket arrangements of white gladioli and stock.

Given in marriage by her father, the bride was attired in a gown of Alencon lace and tulle over satin. The wide round neckline was trimmed with iridescent sequins and the long sleeves ended in a point at the wrist. The skirt of white tulle over satin had bands of lace defining the pointed waistline of the bodice and giving a tiered effect. Her fingertip veil of illusion fell from a crown of Alencon lace and sequins. She carried white carnations and stephanotis.

Miss Patsy Dobson was maid of honor for her sister. She was in an ice blue embroidered taffeta dress with a bouffant skirt and a matching bow with tulle for her headpiece. Her bouquet was of pink carnations.

J. W. Dorr, brother of the groom, was his best man.

A reception followed in the White Kitchen Mirror Room. Mrs. Breland received in a beige chevron with a matching fitted jacket. Her accessories were of forest green. Mrs. Dorr was in blue crepe with matching lace at the neck and black accessories.

# Shoulda Gone Fishin'

BY EDDIE ENGELHORN

Good weather for ducks is our only comment this week. But even the ducks are scarce we hear.

Looks like the only way to catch fish now is to go way up the Jordan although we hear fishing is good in the Wolf River, too. Recent dry spells have evidently caused salt water to move far in the Jordan and fishing in that section should continue fairly good until the heavy rains come, no doubt in January, but with Christmas only a few days away only bachelors and truly rugged married individuals are able to take time out from their families to do any fishing, not to mention having enough money to buy bait.

However, Lucien Favre, proprietor of the LaFiesta, a new fishing camp on the Jordan, reports he has been doing excellent business. Says fishing continues good farther up the river from his camp.

## It's Good Up the Jordan

Lucien says he hasn't been getting many local anglers but the boys from Harrison County knocked them dead over the weekend on both bait and lure.

Fishing out of the LaFiesta Saturday, Roy J. Keel got 37 specks and a 25-pound blue cat caught on a spinning reel using 12-pound test line and live minnows. Roy was fishing by himself and after battling the cat-molster another fisherman who was nearby came to his rescue and helped him catch the cat.

Sunday F. L. Anderson and two sons got 37 specks, two reds and a flounder on live shrimp. Cecil Martin and Purvis Grand got 19 specks, 10 green trout and 10 bluegills also using bait.

Trotting were Mr. and Mrs. Bryan Bohne who got 46 specks and two reds, J. May and H. Prestwood boated 38 specks on live shrimp. Cot West, well known real estate operator, fishing with Andy Fuller didn't count their catch but it was a pretty good one.

Bidwell Adam and Oswald Carver goofed, couldn't find the fish. Lucien says he thinks something was wrong with their forks.

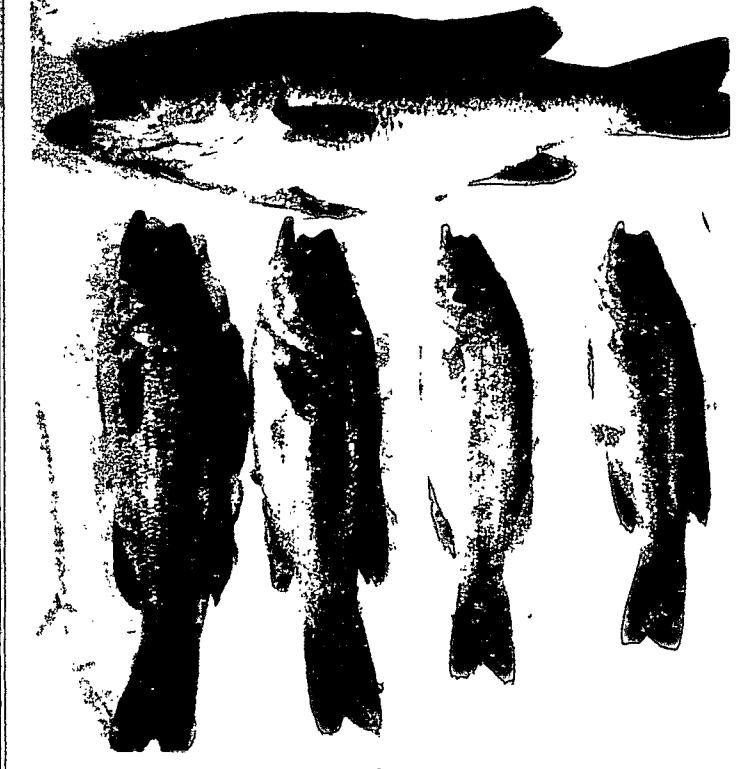

John Stobough and J. Sander got 91 last Friday using bait.

## Griffin's Sad Tale

Doc Griffin, who owns his own pond with some friends and duck hunting grounds, says he checked last week and there were no ducks. In fact, he said, the pond was no longer a pond. It had deteriorated into a mud hole from lack of rain. Also the tall grass had died and the usually productive spot had apparently lost all attractiveness for ducks. Better luck next year, Doc.

Sam (The Turtle King) Meyer finally upheld his reputation by bringing home a turtle caught in Anzley Slough while perching by worms. It was a good size streaky head and we are still waiting since last year for some turtle stew.

No fish tale in Roy Ruhl's catch made in the Jordan River. Roy who lives on Hoffman Lane, Waveland, hit it lucky over the weekend

**ROY RUHR'S CATCH** (Photo by Ed Fayerd, Jr.)

and got five green trout weighing up to almost four pounds. He happened across Ed Fayerd, Waveland photographer, on his way home who took a shot of the black beauties.

Good hunting was reported by Dick Mestayer, Jr., Harvard Burleigh, Doc Dufillo and S. J. Broussard who went out on Dick's cabin cruiser Sunday for a couple of days.

## Old Foes of the Rocks

When writing of St. Stanislaus football schedule we usually mention the real tough teams the Rock-A-Chows have to face each Friday night year after year. One of their yearly opponents, Jeaus High of New Orleans, won the Triple-A Louisiana football championship Friday night by beating LaGrange of Lake Charles 21-20 on LaGrange's own field. The Blue Jays were behind 13-0 late in the third quarter and fought their way back to victory in the final period.

An honest-to-goodness fisherman is grandpa Ben Hille. He walked into Woodford Sells' place the other night when a candy salesman was trying to make a sale. He had a sample box with compartments that when opened occupied almost the entire counter. "Wow, what a tackle box that would make!" Ben observed, his eyes popping.

## At Bowling Center

# Boys Form Strikeout League

Another new league was formed last week at Bay Bowling Center, Mrs. David Pindexter, assistant manager announced.

The league is composed of senior boys who are bowling

Thursday at 4 p.m. and additional players are needed, she said. Joseph Gao is president of the new league, named the Strikeouts. Martin Morris is vice president, Tommy Humphreys, secretary and Joseph (Doc) Rhodes, treasurer.

Last Thursday's scores were high two-game series, Bay Rebels with 976 pins; individual high two-game series, Harry Shattuck with 283; individual high

single game, Alfred Brignac, 176.

In other activity at the Bowling Center, drawing for the bowling ball donated by Eugene Dillman was won by Patricia Blotz of Bay St. Louis. A turkey was won Sunday by Vernon Lohner of Waveland with a high three game series score of 580 pins.

Mrs. Pindexter announced that the center will remain open until 8 p.m. Christmas Eve, but will be closed all day Christmas.

It was the second consecutive win for Harrison Central in the annual tourney.

After getting off to a good start, leading in the first period and maintaining their advantage at half time, the Tigers appeared to tire. Harrison Central moved to a tie in the third period and led by one point going into the fourth. Despite determined play by the Tigers the winners added three points before the final horn.

Rommie Peterson continued to pace the Tigers, reaching up 15 points. Paul Miller and Mark Wilkerson each got 11, Tommy Godwin 8 and Woody Alliston 7.

The Tigers gained the upper hand in the first quarter, 15-10, held Notre Dame to a 15-15 tie in the second and managed to hold on to the lead for the balance of the game.

Bay High's girls advanced to the semi-finals Thursday by beating Perdition 26-25 after being on the short end of the scoring until the final quarter. Virginia Breland was high for the winners with 14 points. The Tigerettes were bumped by Pass Christian's Pirates Friday night 34-21. Harrison Central and St. Joseph's Academy girls waged a close battle all the way in their contest Friday but the Gold Jays wound up on the short end 46-33 score. ## Application Made For Federal Aid On Planning Code

Mississippi Agricultural and Industrial Board reports it has submitted an application for federal planning funds on behalf of Bay St. Louis.

W. P. Starnes, assistant director, notified Mayor John Scalfide of the action and said he hopes to receive a favorable report from the federal government in approximately 45 days. The federal grant would pay for professional assistance in preparing comprehensive planning codes for the city. The first of such codes, a proposed subdivision ordinance, has already been prepared and approved by the city planning commission. A public hearing on the proposal is to be held early next year. Mayor Scalfide has not yet set a specific date.

## School Milk...

(Cont. from Page 1.) the route but that he was not making any money under the present arrangement and needed some changes.

Murphy observed there were complications in that Haver submitted the bid in his name and on the Sealtest product. Board minutes show the bid being awarded to Sealtest, Francis Stenovich, Borden sales manager, was told in answer to his inquiry, it developed that Sealtest bills the schools, receives payment and in turn pays Haver. Haver gets .5 cent on each half pint and McCarty .3 cent for hauling.

Haver said he had trouble getting good milk and was concerned inasmuch as he has children in school too. He contended that he alone was responsible for the bid, which McCarty protested.

Michale E. Haas, attorney for Haver, asked County Superintendent Kenneth G. McCarty whether the board minutes show of the agreement made at the Dec. 6 session was on the minutes. The superintendent replied that it was simply a matter between the board and an individual and therefore was not. Haas then wanted to know if the board had a written opinion from the attorney general.

Ray Howard, personnel director for Sealtest in New Orleans, declared that his firm felt it was involved. He pointed to its strict quality and said it makes good dry bad milk, asserting also that Sealtest intends to continue deliveries to Haver.

Haver challenged that the firm would make good its bid milk and said he has no contract with the firm binding them to deliver.

In the absence of its attorney the board took the position it could not go into the matter at that time. Mrs. C. C. McDonald, Borden 5 trustee, observed that statements are made before the board which it understands to be accurate but are not the full facts.

In addition to the Borden sales manager, two representatives of Newman Cobb Dairy Products of Pass Christian, and some others were spectators at the meeting.
